REMARKS

25X1

1. On 24 September 1950 the Koelleda (L 52/J 49) airfield was still unoccupied and not serviceable. The landing field was being farmed. Civilians were quartered in the four barracks buildings on the southern edge of the field. There were some new houses which were occupied by refugees and a small intact hangar at the loading ramp of the spur track. *

- * Comment. No changes were observed at the Koelleda airfield compared with observations of August 1950. There are no indications of an intended reconstruction of the field.
